

GLEN WILLIAM PEREZ

BS IN INFORMATION TECHNOLOGY

PROFILE AND OBJECTIVES

Passionate web developer specializing in WordPress development, including custom themes, Elementor designs, WooCommerce integrations, and MySQL management. Skilled in Java, JavaScript, PHP, VB.Net, HTML, and CSS, I excel at creating dynamic, user-centric websites. My objective is to continuously grow as a developer while delivering innovative digital solutions that enhance online presence and drive business success.

EXPERIENCE

Web Developer

July 2024 - Nov 2025

Jr. Web Developer at Bullseye Solutions, Inc.

Develop and customize websites using WordPress tools like Elementor and WooCommerce, aligning them with the marketing team's goals. Oversee the maintenance of live websites, including performing regular backups, security scans, and updating content on both the front and back end to ensure optimal performance and security.

Full Stack Developer

Jan 2024 - Apr 2024

Internship at JCBA Solutions and Consultancy Inc.

Designed and implemented assigned reports in SAP Crystal Reports, creating SQL scripts to retrieve necessary data for the reports. Demonstrated technical expertise and attention to detail, ensuring accurate and functional reports were generated to meet organizational needs.

Developer

Jan 2023 - Apr 2023

1st Place in Pitch and System Competition, Jose Rizal University

Responsible for developing and improving system functionality within a dynamic team. As a dedicated developer for our group's pitch and system competition, I contributed significantly to winning 1st place. This involved applying technical expertise and fostering collaboration and innovation to achieve optimal system performance and success.

Data Encoder (Work Immersion)

July 2019 - Aug 2019

Cooperative Development Office, Pasig City Hall

Verified documents for various cooperatives throughout Pasig City, ensuring compliance with established requirements. Accurately encoded essential data for cooperative records.
